

We believe in providing professional care for your most intimate health needs. In an effort to maintain this high quality of care, we would like to share this information with you regarding your medical insurance.

Your medical insurance is a tremendous benefit that your employer provides for you or you purchase privately for yourself. Many times, understanding your benefits is confusing! We will do our best to assist you in this area, but keep in mind because we are a third party and we have limited access to information regarding your medical benefits. We feel it is important that you understand how your insurance works. Remember that your employer or you have chosen this plan and benefits, not your physician. We are not involved with your insurance company in any way. Many plans have specific restrictions that you the patient need to be aware of and you should consult your insurance handbook for these details.

Regardless of what we might calculate as your medical plan benefit in dollars, we must stress the fact that you, **the patient is responsible for the TOTAL cost of your medical treatment.** We will file the claim and do our best to process and coordinate payment from your insurance company.

Please keep in mind that **your insurance company will never guarantee your benefits** or tell us exactly what they will pay directly to us. This is why we can only estimate your portion. We ask that you pay your estimated portion and deductibles at the time of service. If you are unable to pay this estimated portion today we will be more than happy to reschedule your appointment at a later date.

Thank you for your understanding and cooperation.
